Summary — Angular-focused full stack developer with 4+ years of experience building scalable web applications using MEAN stack. Improved application performance by up to 40%, handled 5k+ daily API requests, and reduced UI re-renders by 50% using RxJS and optimized change detection. Experienced in end-to-end feature delivery, reusable component design, and API development..

Skills

Frameworks	: Angular, Node.js, Express, Flask, Tailwind CSS
Languages	: JavaScript, TypeScript, Python
Databases	: MySQL, Mongo DB
Testing	: Jasmine
Libraries	: NGRX, Redux, RxJS
Styling	: Angular Material, Material Tailwind
Tools	: GitHub, Postman, VS Code
Devops	: Jenkins, Docker, Git

Experience

Infosys Limited

Technology Analyst (Mean Stack Developer)

2024 – present

- Achieved 35% smaller bundle size using lazy loading and standalone components.
- Delivered 40% faster load times through efficient module structuring.
- Handled 5k+ daily requests via scalable Node.js services with 25% quicker responses.
- Eliminated unnecessary UI updates, reducing DOM processing by 50% using OnPush strategy.
- Created reusable Angular components, enabling 30% faster feature development.
- Accelerated release cycles from 2 weeks to 10 days.

Senior Systems Engineer (Angular Developer)

2021-2024

- Resolved data inconsistency by 40% using NgRx and RxJS.
- Transitioned load time from 5s to 2.5s through efficient module loading.
- Strengthened test coverage beyond 80% while limiting production issues by 30%.
- Rebuilt UI system, bringing down UI defects by 35%.
- Drove sprint success rate growth from 70% to 90%.

Projects

Infosys Digital Configuration Engine

Tech Stack: Angular, Tailwind CSS, Oracle Rest APIs

- Addressed UI inconsistencies, achieving 30% fewer interface issues.
- Supported secure data exchange across high-volume enterprise systems.
- Prevented recurring defects by 25% through automated testing practices.
- Attained 20% faster rendering for complex workflows through efficient data handling.

AI AMS Workbench

Tech Stack: Angular, Python, Node JS, Tailwind CSS

- Automated recruiter workflows, saving 30% manual screening effort.
- Enabled guided user journeys, shortening onboarding time by 25%.
- Completed feature releases 20% faster through iterative development cycles.

Oracle AI First

Tech Stack: Angular, Node JS, Express JS, Mongo DB, Tailwind CSS

- Simplified service integrations, bringing down overhead by 20%.
- Stabilized onboarding flows, avoiding 30% failure cases.

Education

Jawaharlal Nehru Technological University - Kakinada

Bachelor of technology in Electronics and Communication Engineering

2017-2021

Certifications

- Angular - Infosys Certified Angular Professional
- React - Infosys Certified React Web developer
- Frontend - Infosys Certified frontend developer

Awards

- Rise Award - Infosys
- Insta Award - Infosys
- Automation Open challenge award for best tool development. - Infosys
